

Opportunities for Business

Great opportunities are now on offer for business that want to partner with the festival to create CoastFest 2008.

If your organisation or business is looking to promote and develop Central Coast Art & Culture, if you want to raise awareness about your initiatives in environmental sustainability or you may just like to be associated with this great community building event. We are all connected, and building a culturally strong community can only be a benefit to us all.

We are approaching a new era, when we recognise that everything is connected. business and commerce cannot operate in isolation from the culture of its community, neither can it be sustained without concern and consideration for our environment.

Everything is connected and is interdependant - we need each other to help create a community and environment that we want to be part of.

CoastFest is now offering a range of advertising packages that include a range of ticket options or the opportunity to "tailor make" a package, that is unique to you or your business. This is hands-on sponsorship in your own back yard with an opportunity for you, your people and your business to be actively involved in this great regional cultural festival.

If you would like to find out more click the link below or contact Colette Baron on 0424 167770 or email partners@coastfest.org.au and find out how you can be part of this great Festival.

Help put The Central Coast on the Cultural map this September!
